E sophie.medwell@uk.gt.com

This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a Council and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

We are delighted to introduce to you your new In-charge Auditor, Engagement Manager and Engagement Lead, who have taken over the roles from November 17 and are looking forward to working with the Council going forward.

Members of the Audit Committee can find further useful material on our website where we have a section dedicated to our work in the public sector. Here you can download copies of our publications. Click on the Grant Thornton logo to be directed to the website.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

# Progress at November 2017

## Financial Statements Audit

We have started planning for the 2017/18 financial statements audit and are due to commence our interim audit in January 2018. Our interim fieldwork visit will include:

- Updated review of the Council's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Early work on emerging accounting issues
- Early substantive testing

We will report any findings from the interim audit to you in our Progress Report at the March Audit committee.

The final accounts audit is due to begin in June 2018 with findings reported to you in the Audit Findings Report by the deadline in July 2018.

## Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

We will begin our initial risk assessment to determine our approach in January 2018.

We will report our work in the Audit Findings Report and give our Value For Money Conclusion by the deadline in May 2018.

## Other areas

### Certification

We are currently finalising our work on the Housing Benefit certification and Teacher's pension certification for 2016/17. These are due to be completed by the end of November. We will give a verbal update at this Audit Committee and the detailed findings will be reported in our certification letter which will be taken to the March Audit Committee.

### Meetings

We met with Finance Officers in November as part of our quarterly liaison meetings and to introduce the new members of the audit team to Officers. We continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

# Audit Deliverables

2017/18 Deliverables	Planned Date	Status
<b>Fee Letter</b> Confirming audit fee for 2017/18.	April 2017	Complete
<b>Accounts Audit Plan</b> We are required to issue a detailed accounts audit plan to the Audit Committee setting out our proposed approach in order to give an opinion on the Council's 2017-18 financial statements.	March 2018	Not yet due
<b>Interim Audit Findings</b> We will report to you the findings from our interim audit within our Progress Report.	March 2018	Not yet due
<b>Audit Findings Report</b> The Audit Findings Report will be reported to the July Audit Committee.	July 2018	Not yet due
<b>Auditors Report</b> This is the opinion on your financial statement, annual governance statement and value for money conclusion.	July 2018	Not yet due
<b>Annual Audit Letter</b> This letter communicates the key issues arising from our work.	December 2018	Not yet due
<b>Certification Letter</b> This letter communicates the findings from our certification work undertaken at the Council.	March 2019	Not yet due

# Sector Update

Local authorities are under pressure. You're grappling with severe budgets cuts, making it harder to keep vital services going. You're also being given new powers, which means you're doing even more to support local communities. And on top of all this, you've got to work within a system of internal and external relationships that's getting more complicated every day.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

# Setting up a Successful Social Enterprise

Local government continues to innovate as it reacts to ongoing austerity. An important strand of this response has been the development of alternative delivery models, including local authority trading companies, joint ventures and social enterprises.

This report focuses on social enterprises in local government; those organisations that trade with a social purpose or carry out activities for community benefit rather than private advantage. Social enterprises come in a variety of shapes and sizes as they do not have a single legal structure or ownership rule and can adopt any corporate form as long as it has a social purpose.

In this report we explore what social enterprises look like, the requirements for setting one up, how they should be managed to achieve success and how they can be ended.

We have complemented this with a range of case studies providing inspiring ideas from those that have been successful and some lessons learned to take into consideration.

## Key findings from the report:

- Austerity continues to be a key driver for change: social enterprises are a clear choice where there is an opportunity to enhance the culture of community involvement by transferring these services into a standalone entity at its centre
- The social enterprise model tends to lend itself more to community services such as libraries, heritage management and leisure, but not exclusively so

- Social enterprises can open up new routes of funding including the ability to be flexible on pricing and access to pro bono or subsidised advice
- Some local authorities have converted existing models into social enterprises; for example where a greater focus on social outcomes has been identified

## Striking a balance between financial and social returns

If you are a local authority looking to transition a public service to a social enterprise model certain factors will be key to your success including: leadership, continuing the culture, branding, staff reward and secure income stream.

Download our guide to explore how to handle these factors to ensure success, the requirements for setting up a social enterprise; and how social enterprise can be ended. The guide also showcases a number of compelling case studies from local authorities around England, featuring inspiring ideas from those social enterprises that have been a success; and lessons learned from those that have encountered challenges

# A Manifesto for a Vibrant Economy

Cities and shire areas need the powers and frameworks to collaborate on strategic issues and be able to raise finance to invest in infrastructure priorities. Devolution needs to continue in England across all places, with governance models not being a “one-size-fits all”. Priorities include broadband, airport capacity in the North and east-west transport links.

Addressing the housing shortage, particularly in London and the Southeast, is a vital part of this. There simply is not enough available land on which to build, and green belt legislation, though designed to allow people living in cities space to breath, has become restrictive and is in need of modernisation. Without further provision to free up more land to build on, the young people that we need to protect the future of our economy will not be able to afford housing, and council spending on housing the homeless will continue to rise.

Business rates are also ripe for review – a property-based tax is no longer an accurate basis for taxing the activity and value of local business, in particular as this source of funding becomes increasingly important to the provision of local authority services with the phasing out of the Government’s block grant.

Demographic and funding pressures mean that the NHS no longer remains sustainable, and the integration of health and social care – recognised as critical by all key decision makers – remains more aspiration than reality

There is an opportunity for communities to take a more holistic approach to health, for example creating healthier spaces and workplaces and tackling air quality, and to use technology to provide more accessible, cheaper diagnosis and treatment for many routine issues

## Finding a better way to measure the vibrancy of places

When applied to a place we can see that traditional indicators of prosperity such as GVA, do not tell the full story. To address this we have developed a [Vibrant Economy Index](#) to measure the current and future vibrancy of places. The Index uses the geography of local authority areas and identifies six broad objectives for society: prosperity, dynamism and opportunity, inclusion and equality, health wellbeing and happiness, resilience and sustainability, and community trust and belonging.

The city of Manchester, for example, is associated with dynamic economic success. While our Index confirms this, it also identifies that the Greater Manchester area overall has exceptionally poor health outcomes, generations of low education attainment and deep-rooted joblessness. These factors threaten future prosperity, as success depends on people’s productive participation in the wider local economy, rather than in concentrated pockets.

Every place has its own challenges and opportunities. Understanding what these are, and the dynamic between them, will help unlock everybody’s ability to thrive. Over the coming months we will continue to develop the Vibrant Economy Index through discussions with businesses, citizens and government at a national and local level.

# The Board: creating and protecting value

In all sectors, boards are increasingly coming under pressure from both the market and regulators to improve their effectiveness and accountability. This makes business sense given a strong governance culture in the boardroom produces better results, promotes good behaviour within the organisation and drives an organisation's purpose.

Grant Thornton's new report 'The Board: creating and protecting value' is a cross-sector review of board effectiveness, based on a survey of executives and non-executives from a range of organisations including charities, housing associations, universities, local government, private companies and publically listed companies.

It considers the challenges faced by boards, ways in which they can operate more effectively; and how to strike the right balance between value protection and value creation.

This report uses the DLMA analysis which categorises skills into four areas: Directorship, Leadership, Management and Assurance. This powerful tool provides a framework (see graph 1) with which to evaluate how well an organisation is performing in balance of skills and understanding of roles; and responsibilities between the executive and Board. It helps align risk (value protection) and opportunity (value creation) with overarching strategy and purpose.

# Local Authority 2016/17 Revenue Expenditure and Financing

DCLG has produced a summary of Local Authorities' 2016/17 provisional revenue spending and financing. It notes that Local government expenditure accounts for almost a quarter of all government spending and the majority of this is through local authority revenue expenditure.

The summary is compiled from the Revenue Outturn (RO) returns submitted by all local authorities in England. Coverage is not limited to local councils in England and includes other authority types such as Police and Crime Commissioners and Fire authorities.

The headline messages include:

- Local authority revenue expenditure totalled £93.5 billion for all local authorities in England in 2016-17. This was 1.1% lower than £94.5 billion spent over 2015-16.
- Expenditure on Adult Social Care increased to £14.9 billion in 2016-17. This was £0.5 billion (3.6%) higher than in 2015-16. 2016-17 was first year local authorities were able to raise additional funding for Adult Social Care through the council tax precept.
- The largest decrease in local authority expenditure was on Education services. This was £0.8 billion (2.4%) lower in 2016-17 than in 2015-16. The majority of this decrease is due to local authority funded schools converting to academies.

- Local authorities are financing more of their expenditure from locally retained income. 40.4% of revenue expenditure was funded through council tax and retained business rates and 57.5% from central Government grants. The remaining 2.1% was funded by reserves and collection fund surpluses. These percentages were 38.7%, 60.4% and 0.9% respectively in 2015-16.
- Local authorities used £1.5 billion (6.2%) of the £24.6 billion reserves balance held at the start of the 2016-17.
- Local authorities' use of reserves was £1.1 billion higher in 2016-17 than in 2015-16. Due to changes in their capital programme, £0.5 billion of this increase is due to the Greater London Authority.

# Procurement of External Audit Services

As a result of the highly successful procurement of auditor services, opted-in Local government and police bodies throughout England will collectively benefit from reduced fees for audit services in 2018/19 compared to 2016/17.

Aggregate savings are expected to exceed £6 million per annum, equivalent to a reduction of approximately 18% in the scale fees payable by local bodies.

The results of the process announced on 20 June 2017 involve the award of the following contracts:

- Lot 1 of approx. £14.6 million per audit year was awarded to Grant Thornton LLP;
- Lot 2 of approx. £10.9 million per audit year was awarded to EY LLP;
- Lot 3 of approx. £6.6 million per audit year to awarded to Mazars LLP;
- Lot 4 of approx. £2.2 million per audit year to awarded to BDO LLP;
- Lot 5 of approx. £2.2 million per audit year to awarded to Deloitte LLP; and
- Lot 6 with no guaranteed value of work to awarded to a consortium of Moore Stephens LLP and Scott-Moncrieff LLP.

Contracts were awarded on the basis of most economically advantageous tender with 50% of the available score awarded to price and 50% awarded to quality.

The procurement strategy, agreed by the PSAA Board in December 2016, sets out the basis on which the procurement of audit services was carried out.

Having concluded the procurement, PSAA will commence the process of appointing auditors to opted-in bodies. For more information on the auditor appointment process [click here](#).

## Finalising and confirming appointments

The PSAA Board will approve all proposed appointments from 2018/19, following consultation with audited bodies, at its meeting in mid-December. The Board's decision on the appointment of auditors is final. Following Board consideration, we will write to each audited body to confirm their appointment. We plan to send all confirmations on 18 December..

## Housing Benefit (Subsidy) Assurance Process 2018/19: Module 1 Special Purpose Framework Instruction:

This Circular sets out the arrangements for the audit of the housing benefits subsidy for 2018/19. It is for the LA to appoint a reporting accountant to undertake this work and notify the DWP of this. A standard letter of notification for the LA use is set out in Appendix 1. This letter of notification must be issued to the DWP by the LA no later than the 1st March 2018.

# Independent Review of Building Regulations and Fire Safety

The Government has published the terms of reference for the independent Review of Building Regulations and Fire Safety, commissioned following the Grenfell Tower fire tragedy.

The DCLG press release states:

“This Review will urgently assess the effectiveness of current building and fire safety regulations and related compliance and enforcement issues, with a focus on multi occupancy high rise residential buildings. This will include addressing whether the government’s large-scale cladding system testing programme identified any potential systemic failures.

The Review’s 2 key priorities are to develop a more robust regulatory system for the future and provide further assurance to residents that the buildings they live in are safe and remain safe. While the Review will cover the regulatory system for all buildings, it will have a specific focus on multi occupancy high rise residential buildings.

Dame Judith Hackitt, a qualified engineer with strong regulatory background, is leading the Review and will draw on the experience of local government, industry, the fire sector, international experts and MPs. She will also engage with residents of multi occupancy residential buildings.

The Review will report jointly to Communities Secretary Sajid Javid and Home Secretary Amber Rudd. An interim report will be submitted in autumn 2017 and a final report submitted in spring 2018. The Review will co-operate fully with the Public Inquiry, and Dame Judith Hackitt will review her recommendations in the light of the findings of the Inquiry.”

The terms of reference state that the review will:

- map the current regulatory system (i.e. the regulations, guidance and processes) as it applies to new and existing buildings through planning, design, construction, maintenance, refurbishment and change management;
- consider the competencies, duties and balance of responsibilities of key individuals within the system in ensuring that fire safety standards are adhered to;
- assess the theoretical coherence of the current regulatory system and how it operates in practice
- compare this with other international regulatory systems for buildings and regulatory systems in other sectors with similar safety risks;
- make recommendations that ensure the regulatory system is fit for purpose with a particular focus on multi-occupancy high-rise residential buildings.

# Code of Practice on Local Authority Accounting in the United Kingdom 2017/18 and forthcoming provisions for IFRS 9 and IFRS 15

## Code of Practice on Local Authority Accounting in the United Kingdom 2017/18

CIPFA/LASAAC has issued the Local Authority Accounting Code for 2017/18. The main changes to the Code include:

- amendments to section 2.2 (Business Improvement District Schemes (England, Wales and Scotland), Business Rate Supplements (England), and Community Infrastructure Levy (England and Wales)) for the Community Infrastructure Levy to clarify the treatment of revenue costs and any charges received before the commencement date
- amendment to section 3.1 (Narrative Reporting) to introduce key reporting principles for the Narrative Report
- updates to section 3.4 (Presentation of Financial Statements) to clarify the reporting requirements for accounting policies and going concern reporting
- changes to section 3.5 (Housing Revenue Account) to reflect the Housing Revenue Account (Accounting Practices) Directions 2016 disclosure requirements for English authorities
- following the amendments in the Update to the 2016/17 Code, changes to sections 4.2 (Lease and Lease Type Arrangements), 4.3 (Service Concession Arrangements: Local Authority as Grantor), 7.4 (Financial Instruments – Disclosure and Presentation Requirements)
- Choosing the best kind of services for collaboration
- amendments to section 6.5 (Accounting and Reporting by Pension Funds) to require a new disclosure of investment management transaction costs and clarification on the approach to investment concentration disclosure.

## Forthcoming provisions for IFRS 9 and IFRS 15

CIPFA/LASAAC has issued 'Forthcoming provisions for IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers in the Code of Practice on Local Authority Accounting in the United Kingdom 2018'. It sets out the changes to the 2018/19 Code in respect of IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers. It has been issued in advance of the 2018/19 Code to provide local authorities with time to prepare for the changes required under these new standards.

IFRS 9 replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes a single classification approach for financial assets, a forward looking 'expected loss' model for impairment (rather than the 'incurred loss' model under IAS 39) and some fundamental changes to requirements around hedge accounting.

IFRS 15 replaces IAS 18 Revenue and IAS 11 Construction Contracts. IFRS 15 changes the basis for deciding whether revenue is recognised at a point in time or over a period of time and introduces five steps for revenue recognition.

It should be noted that the publication does not have the authority of the Code and early adoption of the two standards is not permitted by the 2017/18 Code

### Accounting Updates

#### Challenge question:

Is your Head of Finance aware of the changes to the Code of Practice in 2017/18 and the forthcoming changes to lease accounting and revenue recognition?
