

Have your say in shaping children's local community health services

NHS North Somerset Clinical Commissioning Group would like to hear about your experiences of children's community health services. By listening to your views you can help us develop and improve our services.

Children's community health service's include:

- health visiting
- school nursing
- child and adolescent mental health
- speech and language therapy
- occupational therapy
- physiotherapy
- community paediatricians
- services for vulnerable children including children in care, children with learning disabilities or with life limiting illnesses.

If you would like to help shape the future of children's community health services further, please contact Debra Criddle at North Somerset CCG by email: debra.criddle@northsomersetccg.nhs.uk or by phone on 01275 885138.

Fill in the online survey

Take a few minutes to complete our online survey before 21 July, which you can access via our website:

www.northsomersetccg.nhs.uk

Email us

If you have any questions, would like further information or would like to request the survey in a different language or format, please email:
