

## MetroWest Phase 1

### List of Affected Highways, alterations to PROW and Traffic

#### Regulation Orders included in draft Development Consent Order

#### 1. Streets that will be subject to street work

This will principally be moving kerbs, removing or adding splitter islands, providing wider footways or road markings. Some works to utilities may also be required.

##### **Portishead:**

- I. Harbour Road
- II. Haven View
- III. Phoenix Way
- IV. Tansy Lane
- V. Quays Avenue
- VI. Conference Avenue
- VII. Galingale Way

##### **Portbury:**

**In Bristol the following roads will be affected:**

- XXXVI. Clanage Road, Bower Ashton
- XXXVII. Ashton Gate Underpass, Marsh Road Winterstoke Road and Ashton vale Road, Ashton

**2. Highways to be stopped up**

Quays Avenue, Portishead will be stopped up and diverted west of its current alignment. The new route will be open before the old route closes.

**Highways for which no substitute is to be provided:**

All public rights to use:

- crossing south of Tansy Lane Portishead
- the former Moor Lane crossing south of Trinity School Portishead
- crossing forming part of the Drove, north of the highway of Portbury Hundred

The Tansy Lane path will be replaced by a footbridge and a temporary route will be provided whilst the footbridge is built.

The other two crossings fell out of use many years ago and the power to close the crossing is being sought to ensure no one seeks to assert highway rights once the railway is open.

**3. Streets to be temporarily stopped up**

Part of the unnamed street from Avon Road, Pill to the Avonmouth Viaduct of the M5 Special Road will be closed whilst works are carried out to the embankment close to Portbury Junction.

**4. Footpath to be stopped up for which a substitute is to be provided**

Part of footpath BCC/422/10 known as Barons Close Level Crossing or Ashton Containers Crossing, Ashton Vale, Bristol will be closed. The PROW will be diverted north along the new access track built under the Metrobus skew bridge, to meet the all purpose Ashton Vale Road level crossing. The route of the PROW will then proceed south on the footway of Winterstoke Road.

**5. Bridleways and footpaths to be temporarily stopped up with temporary diversions onto the existing public highway network**

Two PROW will be suspended to allow the land under the M5 Avonmouth viaduct to be used as a construction compound. These are:

- Public bridleway LA8/67/10 from its junction with Marsh Lane to its termination point under the Avonmouth Viaduct of the M5 Easton in Gordano; and
- Public footpath LA8/68/10 from its junction with public bridleway LA8/67/10 to its junction with public footpaths LA8/6/5 and LA8/6/10 under the Avonmouth Viaduct of the M5 Easton in Gordano

Public footpath LA8/5/40 between Lodway Close and Avon Road, Pill will be closed to allow the rail bridge over the PROW to be reconstructed. Public footpath LA8/4/10 between Avon Road and Severn Road, Pill will also be closed for the same purpose.

Public footpath LA8/52/10, known as Star Lane, Pill Richard M to consider and update
