This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications <https://www.grantthornton.co.uk/en/services/public-sector-services/>

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at March 2023

Financial Statements Audit 2021-22

We undertook our initial planning for the 2021/22 audit in January 2022, and interim audit in February and March. We began our work on your draft financial statements in July.

In April we issued a detailed audit plan, setting out our proposed approach to the audit of the Authority's 2021/22 financial statements.

We reported the outcomes from our initial work in the Audit Findings Reports in September 2022 and issued an update in November 2022. Following approval of the accounts, we gave our opinion on the financial statements on 1 February 2023. We have been unable to issue the certificate to close the audit as the following areas have yet to be completed:

- Issuing of the Auditor's Annual Report summarising our work on the Council's value for money arrangements
- Audit and submission of the Whole of Government Accounts return.

We have completed and discussed updated Audit Findings Reports, for the Council, with management and the Chair of the Audit and Governance Committee prior to the signing of the audit opinion. These reports have been shared with Members.

Financial Statements Audit 2022-23

We will undertake our initial planning for the 2022/23 audit in March 2023, and discuss with management a suitable timetable for the interim audit. We begin our work on your draft financial statements in July.

We will issue a detailed audit plan, setting out our proposed approach to the audit of the Authority's 2022/23 financial statements.

The Accounts and Audit Regulations 2015 were amended by SI 2021 No. 263. The Department for Levelling Up, Housing and Communities (DLUHC)

previously stated their intention to introduce secondary legislation to extend the deadline for publishing audited local authority accounts to 30 November 2022 for the 2021/22 accounts. This is enacted by The Accounts and Audit (Amendment) Regulations 2022 (SI 2022 No. 708) that came into force on 22 July 2022. The deadline for publishing audited local authority accounts for 2021/22 was extended to 30 November 2022 and thereafter changed to 30 September for years up to 2027/28.

Value for Money

The new Code of Audit Practice (the "Code") came into force on 1 April 2020 for audit years 2020/21 and onwards. The most significant change under the new Code was the introduction of an Auditor's Annual Report, containing a commentary on arrangements to secure value for money and any associated recommendations, if required.

The new approach is more complex, more involved and is planned to make more impact.

Under the 2020 Code of Audit Practice, for relevant authorities other than local NHS bodies auditors are required to issue our Auditor's Annual Report no later than 30 September or, where this is not possible, issue an audit letter setting out the reasons for delay.

As a result of the ongoing pandemic, and the impact it has had on both preparers and auditors of accounts to complete their work as quickly as would normally be expected, the National Audit Office has updated its guidance to auditors to allow us to postpone completion of our work on arrangements to secure value for money and focus our resources firstly on the delivery of our opinions on the financial statements. This is intended to help ensure as many as possible could be issued in line with national timetables and legislation. The extended deadline for the issue of the Auditor's Annual Report is now no more than three months after the date of the opinion on the financial statements. We anticipate issuing our Auditor's Annual Report in March 2023.

Other areas

Certification of claims and returns

We certify the Authority's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions (DwP). This work is ongoing and we continue to have discussions on delivery dates with the DwP. We will update the Committee members on any updates

We certify the Authority's annual Teachers' Pensions return in accordance with procedures agreed with Teachers' Pensions. The certification work for the 2021/22 return began in October, and was completed by the deadline of 30 November.

Meetings

We met with Finance Officers in January 2023 as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

Events

We provide a range of workshops, along with network events for members and publications to support the Authority. Your officers have been invited to our Accounts Workshop in February 2023, which provided an opportunity to work through new reporting requirements for local authority accounts and give insight into elements of the audit approach.

Further details of the publications that may be of interest to the Authority are set out in our Sector Update section of this report.

Audit Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. 2021/22 is the fourth year of that contract. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in the period 2018/19 to 2021/22 has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the "limited improvements" (2) rating means that additional audit work is required.

We continue to review the impact of these changes on both the cost and timing of audits. We will discuss this with your s151 Officer including any proposed variations to the Scale Fee set by PSAA Limited, and will communicate fully with the Audit Committee.

As a firm, we remain absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting.

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Grant Thornton – Nearly 60 councils at risk of ‘running out of money’ next year

Grant Thornton has warned that the soaring cost of living combined with a decade of austerity could see up to a sixth of English councils fully deplete their reserves in 2023-24 without substantial spending cuts.

Research found that, as a result of higher inflation, councils are expected to have a cumulative budget deficit of £7.3bn by 2025-26 – an increase of £4.6bn since forecasts made at the beginning of this year.

Grant Thornton said that although reserves were bolstered by more than £5bn in 2020-21 due to higher government funding, these balances will “continue to unwind through the long tail of Covid-19” with close to 60 councils forecast to use all earmarked and unallocated reserves next year.

Without additional income, authorities would need to make savings of over £125 per person by 2025-26, equal to the average yearly spend on homelessness, sports and leisure, parks and open spaces, libraries and waste services.

Phillip Woolley, Head of Public Services Consulting at Grant Thornton, said: “Local government has faced unprecedented demands and pressures over the last decade and without action from both central government and councils, in the face of these inflationary pressures, the list of authorities in need of exceptional support looks set to grow quickly.

“Our research shows the additional Covid-19 funding, while critical to support immediate challenges, has not addressed underlying systemic issues or the precariousness of councils’ financial sustainability in the face of economic instability.

“Local authorities are also now facing the risk of interest rate rises, increasing debt financing costs and the real risk of reduced funding from central government, in response to the current economic turmoil facing the country. Without committed intervention from all sides, there is a risk that the sector levels down instead of up.”

Grant Thornton estimated unitary authorities would have the largest budget gap (£1.8bn) by 2025-26, but district councils would have the largest gap compared to net spending at 10.2%.

The firm added that austerity and changing policy demands have left councils struggling to innovate in their services and prevented investment in finance and procurement, diminishing the sector’s ability to tackle medium-term challenges.

Grant Thornton said additional government funding alone will not lead to improvements, and that councils should focus on improving governance and developing financial stability plans.

Joanne Pitt, local government policy manager at CIPFA, said: “With no spending review and no fair funding review, CIPFA shares Grant Thornton’s concerns about the financial sustainability of some in the sector.

“While there are actions local authorities can take to strengthen their own financial resilience, they are facing significant inflationary pressures and rising demand which makes this hugely challenging for the sector.”

Audit Committees: Practical Guidance For Local Authorities And Police – CIPFA

In October CIPFA published this guide, stating “This fully revised and updated edition takes into account recent legislative changes and professional developments and supports the 2022 CIPFA Position Statement. It includes additional guidance and resources to support audit committee members, and those working with and supporting the committee’s development.”

CIPFA go on to state “Audit committees are a key component of governance. Their purpose is to provide an independent and high-level focus on the adequacy of governance, risk and control arrangements. They play an important role in supporting leadership teams, elected representatives, police and crime commissioners and chief constables.

This edition updates CIPFA’s 2018 publication to complement the 2022 edition of the CIPFA Position Statement on audit committees.

The suite of publications has separate guidance resources for audit committee members in authorities, members of police audit committees, and a supplement for those responsible for guiding the committee.

New aspects include legislation changes in Wales and new expectations in England following the Redmond Review. All authorities and police bodies are encouraged to use the publication to review and develop their arrangements in accordance with the Position Statement.

The appendices include suggested terms of reference, a knowledge and skills framework and effectiveness improvement tools.”

The guide covers a number of key areas for Audit Committees, including:

- Purpose
- Core functions:
 - Governance, Risk and Control
 - Accountability and Public Reporting
 - Assurance and Audit arrangements
 - Ensuring focus
- Independence and accountability
- Membership and effectiveness

Audit and Risk Assurance Committee effectiveness tool – NAO

The National Audit Office (NAO) has published this tool which supports Audit Committees in assessing their effectiveness.

The NAO comment “Audit and Risk Assurance Committees (ARACs) play a crucial role in supporting the effective governance of central government departments, their agencies and arm’s-length bodies.

ARACs are operating in a highly challenging context. Government organisations are managing many short- and long-term risks and are required to be resilient to a number of pressures. This has created an environment where ARACs need to be dynamic and responsive to the changing risk profiles and demands of their organisations. ARACs can see this as an opportunity to work out how they can most proactively work with the Board and accounting officer.

Against this background, the NAO’s effectiveness tool provides a way for ARACs to assess their effectiveness against more than just the basic requirements. It provides aspects of good practice to give ARACs greater confidence and the opportunity to meet the requirements of their role.

The NAO’s effectiveness tool is a comprehensive way for ARACs to assess their effectiveness on a regular basis.”

The tool covers:

- Membership, independence, objectivity and understanding
- Skills and experience
- Roles and responsibilities
- Scope
- Communication and reporting

Although the tool is designed for central government Audit Committees it is also relevant to local government.

The guide can be found here:
