The Corporate Plan details about Adult Social Care

“The system for funding adult social care is widely recognised as no longer fit for purpose with a national solution for sustainable funding being essential. Care markets locally and nationally are challenged by rising costs, staff shortages and the ongoing need to maintain quality. As demand for these services increase in line with an aging population, so does the cost to the council, coinciding with almost a decade of reducing government funding for local authorities.”

We must commission a range of services across adult social care that prevent and / or delay people from needing to rely on statutory services for as long as possible. Details of how we will achieve this will reflect a move to offering better outcomes, that improve and maintain the confidence and therefore, wellbeing of service users. We also intend to focus on support for informal Carers to maintain their caring role, delaying the need for large packages of care and placements into care homes.

The services in this commissioning plan are key to the commitments in respect of Adult Social Services priorities for 2023/24.
