

Motion for the Ocean- North Somerset draft – Councillor Tristram

North Somerset is a coastal district that is also one of the most low-lying and flood prone areas in England. We depend on the sea for our livelihood through tourism, and on the land threatened by sea-level rise and river flooding for our farming and places to live and work. We recognise the importance of the marine and river ecosystems and our role as a stakeholder for them. We undertake to bring a report forward to Council within 12 months of this motion containing appropriate recommendations to ensure we play our part in ensuring realising clean, healthy and productive rivers and oceans alongside our existing commitment to tackle the climate emergency.
